| SUBJECT: Worker Exposure: OSHA concerns | | | |
| SUMMARY OF COMMUNICATION | | | |
| <p>I spoke with Alex Gimble of OSHA (767-4760). We discussed worker exposure at the S. Cavalcade site. He believes that, ^{with} the type of business & type of contaminant, on-site commercial workers would not be exposed. The workers would either be inside the buildings or trucks most of the time, and very unlikely to go off the concrete area when outside.</p> <p>He did feel that there may be short term exposure to utility workers. He will send information on NIOSH requirements.</p> | | | |
| CONCLUSIONS, ACTION TAKEN OR REQUIRED | | | |
| Incorporate NIOSH standards as "other factors to consider" | | | |
